

Based upon my service on the Planning Board, I strongly encourage the Select Board to consider reappointing members to the Planning Board who have evidenced they are taking the responsibility of service seriously and do so by preparing ahead of time to responsibly discuss the merits of each application.

The Planning Board has a particularly difficult subdivision application currently under review and needs all Planning Board members at their full attention to make the best decision they can ensuring the applicant has met all requirements of the Subdivision Ordinance since a wrong decision could impact the Town of Palmyra financially.
